## Online Ordering Made Simple

ONLINE ORDERING AND DELIVERY

ai enabled

White-labeled, commission-free application and website for each restaurant, capable of facilitating delivery using third-party drivers—even for orders placed directly through the restaurant's own platforms. This solution enables your patrons to place orders ahead of time, opt for pick-up, or request delivery, all with absolute ease. Our service includes seamless integration with over 21 delivery applications, encompassing Uber Eats, Postmates, Doordash, and Grubhub, among others.

Works with any POS	No 3rd Party Commissions	Third Party Delivery	Real-Time Menu Sync	White-Labeled App and Web	Customer Profiles	QR Code Scan Ordering

FEATURES

NO 3RD PARTY COMMISSIONS
Minimize your dependence on external ordering services and obtain direct access to the benefits of restaurant-branded online ordering and mobile applications, free from commission charges in perpetuity.

NO DELIVERY DRIVERS, NO PROBLEM
Restaurants can leverage the power of speed when it comes to delivery. Furthermore, restaurants are free to customize the delivery fee and surcharges according to their own needs.

QR CODE SCAN ORDERING
Enable on-the-go ordering from a range of sources, including QR codes, websites, flyers, window displays, and other marketing materials. Take convenience to the next level with our innovative direct-ordering system from your smartphone.

REAL-TIME MENUSYNC™
MenuSync™ automatically syncs menus across all devices, so guests have a unified and customizable menu management experience.

Save on commissions, reduce costs, reach more customers and enhance customer experience and loyalty.

MULTI-PLATFORM SUPPORT
Easily accept orders from a variety of popular POS systems and our own tablet solution. Enable the ability to automatically route orders to printers, Kitchen Displays Systems, and other third-party devices. Monitor online ordering data and generate reports in real time for up-to-date insights.

PROFILES
Our platform remembers customer preferences, records their order history, securely stores contact information and payment details. With these insights, we can tailor marketing outreach with pinpoint accuracy via email campaigns, SMS messages and in-app notifications.

WHITE-LABELED APP AND WEB
Tap into the power of modern technology and say goodbye to costly commissions with our cutting-edge, white-labeled restaurant app.
