FEATURES

PREP STATION ROUTING

Eliminate inefficiency and enjoy maximum accuracy with our ticket management system. Connect multiple kitchen displays with one synchronized network to receive real-time updates across all stations—streamlining operations for optimal performance.

MULTI-LINGUAL SUPPORT

Our platform enables employees to access and comprehend data in their preferred language, ensuring an optimized user experience through the power of multilingualism.

SAVE ON PRINTING

Say goodbye to paper clutter and waste, and say hello to budget-friendly savings. Select the perfect equipment for your restaurant and begin reaping the rewards of digital transformation almost immediately. Streamline your kitchen display system (KDS) with your printer(s) for maximum efficiency.

KITCHEN GRADE HARDWARE

Engineered and rigorously evaluated on specially designed equipment tailored to meet the demands of steamy and oily cooking environments, our heat-grade hardware ensures optimal performance for your kitchen operations.

SEAMLESS CONNECTIVITY

Connect to the eatOS food service ecosystem, encompassing the Point of Sale, Self-service Kiosk, Mobile App, Online Ordering, Delivery Apps, and more. Crafted to operate offline, so you can rest easy knowing your kitchen won't be disrupted by internet connection issues.

ANALYTICS AND REPORTING

Harness the power of cloud-based analytics to make well-informed decisions that optimize kitchen operations and profitability. View sales figures, refunds, voids, food costs and more in real time and take full control over your culinary operations.

eatOS's ai-powered point-of-sale ecosystem, built specifically for restaurants with the objective of simplifying restaurant management and augmenting the dining experience for both guests and operators, thereby simplifying repetitive tasks with insightful data.
